

Workshop

Filtering Legacies— Filtering Wasted Environments

Thursday 11 Nov. 2021

12:30
Get together

14:30–16:00

Session 1

(Moderation Alwin Cubasch)

Simone Müller (Rachel Carson Center):
Contested Boundaries of Hazardous Waste.
Filter Technologies and the Controversy on
Waste Incineration in 1980s USA from
a Global Perspective

Manuel Harms (TU Dresden):
The 'Reverse' and 'Productive' Toxicity
of Antimicrobial Resistance

16:30–18:00

Session 2

(Moderation Heike Weber)

Elena Kunadt (TU Berlin):
Technische Lösung oder Anwendungsverbot:
Lässt sich Atrazin aus dem Wasser filtern?

Paulina Grebenstein (urban:eden lab):
Urbane Naturfilter

18:15

Keynote

Verena Winiwarter (BOKU):
Technologically Enhanced Naturally Occurring
Radioactive Materials: A Borderline Case

20:00
Dinner

Friday 12 Nov. 2021

9:30–11:00

Session 3

(Moderation Christian Kassung)

Khashayar Razghandi (ExC MOA):
Rethinking Filter: An Interdisciplinary Inquiry into
Typology and Concept of Filter

Léa Perraudin (ExC MOA):
Leakage and Accumulation. A Field Test for Environing

11:30–13:00

Session 4

(Moderation Verena Winiwarter)

Sabine Loewe-Hannatzsch (TU Freiberg):
Waste Legacies of Uranium Ore Mining by
the SAG/SDAG Wismut, 1946–1991

Stefan Guth (Universität Tübingen):
Unfiltered Reality. Facing the Legacies of
Uranium Mining and Plutonium Production
in Western Kazakhstan

14:00–16:00
Fieldtrip
Location and Program tba

18:00
Conclusion & Dinner

↗ Workshop

Thursday 11–12 November 2021

For physical/digital attendance please register
till 1 November 2021 here: ronja.quast@hu-berlin.de

Organisation: Alwin Cubasch, Heike Weber,
Verena Winiwarter, Ronja Quast, Vanessa Engelmann
